AJEROBOAM 3-litre bottle of Brut - BARONS DE ROTHSCHILD Champagne

*A very fine blended wine based on a majority of Chardonnay
The Rothschild Family's take on the great Champagne tradition*

The inimitable spirit of the Rothschild Family in a Grand Vins de Champagne – Probably the most famous family in the history of wine making.

"United and driven by a spirit of enterprise for over two centuries, our family also exemplifies a sense of quality and the art of living. We are delighted to share with you these values of excellence, taste and conviviality, of which the Barons de Rothschild Champagne is a sparkling and delectable expression."

The Family, passionate about the great terroirs of France and the world, wanted to craft an exceptional "Grand Vin" together and Champagne was the natural choice. Today, our cuvee is served all over the world in some of the most prestige's establishment to celebrate art, love, culture & history.

The breadth and depth of this wine are a testament to the high proportion and exceptional quality of the reserve wines that have gone into the blend.

TASTE

Bright, clear, pale gold tints woven with very fine bubbles.

The freshness of the Chardonnay, aromas of white flesh fruit such as pears and nectarines, ethereal touches of peony expressed by the Pinot Noir.

Roundness and generosity accompany a lovely verticality. Crisp nectarine, notes of honey, saffron and pepper nicely set off by lovely bitters on the finish.

"Lights in Town" Painting by Artist Tran Anh Huy

Material: Oil on canvas

Size: 100 x 120cm

Date: 2014

FINE ART GALLERY

Artist **Tran Anh Huy** was born in a family of many artists. It seems natural that Tran Anh Huy followed the family's tradition and developed an interest in fine art at a very young age. He has a long time in painting under the guidance of his own father - artist Tran Mau Loc, a well-known artist in Hue, his hometown.

Anh Huy has a special interest in Impressionism. Light, nature and the constantly changing seasons on the streets are what really inspire him. With a view of his house, which is located at the riverside, observation of the changing light and its ability to change the touch and feel of a place in seconds has been frequently reflected in his paintings. His ambition is to overcome the challenge of transferring emotion into paintings, and to show spectators how a true beauty from a scene could move him.

Traveling around Vietnam and neighboring countries could also bring him experiences. During the trip, he made some serious sketches and brought them into paintings afterward. Places, streets, people from many countries, and many cities have been painted out. Back to the studio Huy intuitively marks from memories and emotions, sometimes using sketches or a photograph to help him get started, or sometimes, he comes straight to the picture without reference survey. Primarily using acrylic on canvas or paper, he builds paintings in layers and paints several pictures at once. All manner of materials is used including brushes, palette knives, credit cards, fingers and whatever else is on hand.

Numerous of Tran Anh Huy's works are collected by art collectors in Vietnam and overseas. He has loyal collectors from the United States of America, France, Australia, Hong Kong, Thailand, Japan, Korea and Singapore. His paintings are also displayed in major hotels and resorts in Vietnam, notably Park Hyatt Saigon, InterContinental Hanoi Landmark 72, InterContinental Saigon Hotel and Indochine Palace Hue Hotel.

As the capital of Vietnam, Hanoi is steeped in history and is known for its well-preserved heritage. Located in central Vietnam, Da Nang is a vibrant coastal city with a rich cultural heritage. It is known for its beautiful beaches, such as My Khe Beach, and its proximity to UNESCO World Heritage Sites like Hoi An Ancient Town and the My Son Sanctuary. Da Nang is also famous for its modern landmarks, including the Dragon Bridge and the Marble Mountains, which are home to several Buddhist cave temples.

As the largest city in Vietnam, Ho Chi Minh City (Saigon) is a bustling metropolis with a blend of traditional and modern influences. The city played a significant role in Vietnam's history and is home to numerous historical landmarks. The Reunification Palace, War Remnants Museum, and Notre-Dame Cathedral Basilica of Saigon, Landmark 81 holds the position of the tallest building in Vietnam, the second tallest building 461.2-metre (1,513 ft) in Southeast Asia, as well as the 18th tallest building in the world overall are some of the notable attractions that reflect the city's past and present.

Artwork: "In the Light of Consciousness"
by Tia-Thuy Nguyen

Material:

Embellishment on canvas

Size: 30 x 30cm

Date: 2023

Sponsored by:

Tia Thuy Nguyen

This piece is about self-reflection and self-awareness which revokes individuals to examine our thoughts, emotions, and experiences from a place of conscious observation and understanding. By shining the light of consciousness on our inner selves, we may gain clarity, insight, and the potential for personal growth and transformation.

Thousands of sequins and beads are sewed straight onto the canvas in these exquisite works of art. This technique has its origins in the work of fashion designer and global artist Tia-Thuy Nguyen. The depth of textures adds a tactile element to the canvases, highlighting the artist's imagined forms. The AmCham Governors' Ball in 2023 features a Blue Ice concept that complements the blue color scheme. The color of blue stands for goals and the future. It frequently represents possibilities, optimism, and forward-thinkingness. Feelings of optimism and excitement about the future can be evoked by the color blue. Blue in the AmCham CSR Projects mission denotes a dedication to using charitable endeavors to build better futures for people and business communities. It is a potent symbol and a poignant reminder of the value of altruism, the possibility of future progress, and the transforming influence of education on the lives and communities of people not just in Vietnam but around the world.
